The legion of friends of Dr Simpson Elkin, of Atlanta, are rejoicing to know that he is rapidly recovering from a serious case of typhoid fever, and will soon be able to leave his bed. Dr Elkin, who is one of the foremost physicians and surgeons in the South, has been overworked for some time, and his illness caused great alarm to his many friends. As soon as able, he will likely spend some days in this, his old home.

Summer Diarrhoea in Children.
During the hot weather of the summer months the first unnatural looseness of a child's bowels should have immediate attention, so as to check the disease before it becomes serious. All that is necessary is a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by a dose of castor oil to cleanse the system.

Rev M O Stockland, Pastor of the first M E Church, Little Falls, Minn writes: "We have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for several years and find it a very valuable remedy, especially for summer disorders in children." WORDS OF WISDOM.

Do not debate. On no account enter into any dispute with any one and especially about the truths of salvation. Give to all men every help to their salvation but that of debating with them about it.—William Law.

The loving heart which seeks to offer all, even disappointments and vexations which touch the tenderest places, to God, will be more likely to grow in generosity of spirit than one who bears grudgingly what cannot be averted.—H. L. Sidney Lear.

Present duty is that which is immediately before us. To-day's duty is its own and cannot be performed at any other time. To-morrow will have its own, and we should not by negligence or delay burden to-morrow with that which is at hand to-day. Therefore present duty is always urgent. To neglect it, or refuse to perform it, may imperil all that is involved in it.—United Presbyterian.

The experience of the Christian in his strongest shield against unbelief. He knows that Jesus has given him peace. He has felt that Christ has quickened him into new and nobler life. He has received a new nature from his Lord. Get this experience and it will give you steadfastness.—William M. Taylor.

Intellectual doubt goes deeper down than the intellect, nor will intellectual clearness cast it out. Unless the heart be settled in Christ, the intellect may go on doubting forever. Unless the spiritual atmosphere be clear, it matters little what is the character of the intellect. It is that spiritual kingdom that gives laws to all the rest; they depend upon it, not it upon them.—William F. Stevenson.

FERTILIZING ORCHARDS.

W. F. Massey Tells How This Work Can Best Be Done—Fruit Trees Need Enriching.

Farmers as a rule realize the importance of fertilizers on their annual crops, but when it comes to the orchard they imagine that an apple or a peach tree or other fruit tree can get all it needs from the natural soil. And not only do this, but the orchard is often expected to furnish hay or pasture for stock. The result of such treatment is seen all over the country in decrepit trees and poor crops of fruit, and the growers say that the climate has changed, and they can no longer grow fruit as they formerly did, when in fact soil exhaustion is at the root of the whole trouble. When one considers the great amount of plant food that has been taken from the soil to build up a great apple tree, and that a crop of apples takes from the soil mineral matters to the extent that a crop of wheat of 25 bushels per acre will take, the reason for the failure of the fruit becomes apparent. In the early growth of an orchard we want the trees to develop fast, and hence we fertilize the soil with a complete fertilizer and grow some truck crops in it that need such feeding. But after the tree has gotten into a bearing condition we can put the land in grass and cut it several times during the season, and let the cut grass rot on the land, and can thus supply all the nitrogen needed, especially if clover is grown. Plenty of white clover among the grass, well supplied with acid phosphate, and potash mixed five parts of the first to one of the last, will supply in 400 pounds per acre what the fruit needs for its perfection. Try this and see if the fruit does not respond.

The Sparrow Pest.
Do the sparrows annoy you, roosting and chattering about your dwelling and eating your grain out of stack and mow? Get out the gun about roosting time and shoot. Hit as many as you can. It won't be long before they will give you a wide berth.

A horse of quality should have endurance and in addition to a fair gait should have a fast walk and be sure-footed.

The Reason.
"Has he joined the club yet?"
"No, and I don't understand it."
"Did you tell him we had all the comforts of home?"
"Sure."
"That's why, then; he's a married man."—Houston Post.

Attraction.
Perhaps the water wagon would popularize itself if some one would combine it with scent of gasoline.

Unnecessary Expense.

Acute attacks of colic and diarrhoea come on without warning and prompt relief must be obtained. There is no necessity of incurring the expenses of a physician's service in such cases if Chamberlain's Colic, Cholera and Diarrhoea Remedy is at hand. A dose of this remedy will relieve the patient before a doctor could arrive. It has never been known to fail, even in the most severe and dangerous cases and no family should be without it.
